PROJECT

IMRABO - AI Based Personal Companion

June 2024 – March 2025

- Designed a physical AI assistant inspired by BB-8, boosting task management efficiency by 40% June 2024 – Present
- Developed a cross-platform interface using Flutter, React.js, and Electron.js for mobile, web, and desktop, increasing user engagement by 30%
- Built a backend with Django and FastAPI, leveraging WebSockets, WebRTC, and MQTT to reduce server response time by 20%
- Integrated IoT capabilities for smart home device control, expanding functionality and user control options by 50%.

Flask Calculator

January 2024 - August 2024

- Built a web-based calculator using Flask with HTML/CSS/JS frontend, enabling real-time calculations..
- Implemented basic arithmetic operations with real-time result display, improving speed and accuracy.
- Designed a responsive, user-friendly interface for desktop and mobile, enhancing UX.
- Strengthened Flask routing, template rendering, and backend/frontend integration, improving maintainability.

Email Checker

July 2023 - December 2023

- Implemented duplicate detection and domain suggestion, improving email accuracy and reducing errors by 30%.
- Developed automatic logging and data storage for valid and invalid emails, enhancing workflow efficiency.
- Deployed on Render with GitHub CI/CD, making the app publicly accessible and maintainable
- Optimized backend for concurrent requests, reducing validation latency and improving overall performance by 25%.

SKILLS

- Languages & Frameworks:** Python, C++, Flask, Javascript, React.js.
- Libraries & Tools:** Matplotlib , Android Studio, Visual Studio Code, PowerBI.
- Web Development:** HTML, CSS, JavaScript, REST APIs.
- Database Management:** SQL, MongoDB.
- Version Control & IDEs:** Git, GitHub , PyCharm, MATLAB.

EDUCATION

SANT GADGE BABA AMRAVATI UNIVERSITY

Bachelor of Engineering in Electronics and Telecommunication

Amravati, IN

January 2021 - May 2025

SHRI. RAMKRISHAN KRIDA VIDYALAYA AMRAVATI

Higher Secondary Board in Electronic Science

Amravati, IN

July 2019 - November 2020

ADDITIONAL INFORMATION

- Dart & Flutter | The Complete Flutter Development Course
- KOTLIN - Android App Development using Kotlin
