

GAURAV AAWANKE

AI Engineer | Python Backend Developer

Amravati, Maha 444601 • gauravawanke@gmail.com • + 91 75586 87453 • [LinkedIn](#) • [GitHub](#)

SUMMARY

- AI Engineer and Python Backend Developer with hands-on experience in building end-to-end AI applications using FastAPI, React.js, PostgreSQL, ChromaDB, and Large Language Models (LLMs). Experienced in developing Retrieval-Augmented Generation (RAG) systems, AI agents, PDF processing pipelines, tool integration, and scalable backend APIs. Passionate about designing real-world AI products and continuously learning modern AI technologies..

PROJECTS

AI Resume Analyzer

June 2026 – Current

- Developed an AI-powered Resume Analyzer using React.js, FastAPI, PostgreSQL, and Qwen LLM to automate resume parsing and generate structured candidate insights.
- Built an end-to-end resume processing pipeline including PDF upload, text extraction, AI analysis, and structured JSON generation for efficient resume evaluation
- Designed a modular FastAPI backend with REST APIs for resume upload, analysis storage, PostgreSQL integration, and scalable service-based architecture.
- Implemented prompt engineering to extract candidate details and generate ATS-friendly resume and analysis..

Smart AI Assistant

January 2026 - June 2026

- Developed a full-stack AI Assistant using React.js, FastAPI, and PostgreSQL, enabling multi-session conversations with persistent chat history and real-time AI interactions.
- Implemented Retrieval-Augmented Generation (RAG) using ChromaDB for PDF-based question answering, allowing users to upload documents and receive context-aware responses .
- Built a modular backend with tool calling, conversation memory, and session management, improving response relevance and maintaining context across multiple interactions
- Integrated Qwen LLM with prompt engineering and structured response handling to deliver intelligent, context-aware answer.

IMRABO - AI Based Personal Companion

June 2024 – March 2025

- Designed a physical AI assistant inspired by BB-8, boosting task management efficiency by 40%
- Implemented multi-session chat history with PostgreSQL for persistent AI conversations.
- Built scalable backend services using Django, FastAPI, WebSockets, WebRTC, and MQTT.
- Optimized for contextual accuracy and improved overall interaction quality

SKILLS

- Languages & Frameworks:** Python, JavaScript, , FastAPI , React.js
- Libraries & Tools:** Matplotlib; Android Studio, Visual Studio Code, Power Bi
- AI & GenAI :** Large Language Models , Retrieval-Augmented Generation ,ChromaDB ,AI Agents
- Database Management:** SQL, PostgreSQL
- Version Control & IDEs:** Git, GitHub PyCharm,DBEaver

EDUCATION

SANT GADGE BABA AMRAVATI UNIVERSITY

Amravati, IN

Bachelor of Engineering in Electronics and Telecommunication

January 2021 – May 2025

SHRI. RAMKRISHAN KRIDA VIDYALAYA AMRAVATI

Amravati, IN

Higher Secondary Board in Electronic Science

July 2019 - November 2020

CERTIFICATION

- Dart & Flutter | The Complete Flutter Development Course
- KOTLIN - Android App Development using Kotlin
- Figma for User Interface and User Experience UI UX Design
- Node.js and Beyond: The Complete Developer Bootcamp
