

GAURAV AAWANKE

AI Engineer | Python Backend Developer

Amravati, Maha 444601 • gauravawanke@gmail.com • + 91 75586 87453 • [LinkedIn](#) • [GitHub](#)

SUMMARY

- AI Engineer and Python Backend Developer with hands-on experience in building end-to-end AI applications using FastAPI, React.js, PostgreSQL, and Large Language Models (LLMs). Skilled in LLM integration, Retrieval-Augmented Generation (RAG), AI agents, prompt engineering, and scalable backend API development. Passionate about building production-ready AI applications .

PROJECTS

AI Resume Analyzer

June 2026 – July 2026

- Built an end-to-end AI Resume Analyzer that processes resumes from upload to AI-generated analysis using React, FastAPI, PostgreSQL, and Large Language Models.
- Designed and implemented an AI pipeline for PDF upload, text extraction, prompt engineering, structured JSON generation, and persistent storage of analysis results.
- Integrated Google Gemma and Qwen LLMs with prompt engineering to generate ATS scores, professional summaries, technical skills, soft skills, missing skills, and personalized improvement suggestions.
- Built a responsive React dashboard featuring dynamic routing, loading and error states, ATS score visualization, skills analysis, and AI-generated recommendations.

Smart AI Assistant

January 2026 - June 2026

- Developed a full-stack AI Assistant using React.js, FastAPI, and PostgreSQL, enabling multi-session conversations with persistent chat history and real-time AI interactions.
- Implemented Retrieval-Augmented Generation (RAG) using ChromaDB for PDF-based question answering, allowing users to upload documents and receive context-aware responses .
- Built a modular backend with tool calling, conversation memory, and session management, improving response relevance and maintaining context across multiple interactions
- Integrated Qwen LLM with prompt engineering and structured response handling to deliver intelligent, context-aware answer.

IMRABO - AI Based Personal Companion

June 2024 – March 2025

- Designed a physical AI assistant inspired by BB-8, boosting task management efficiency by 40%
- Implemented multi-session chat history with PostgreSQL for persistent AI conversations.
- Built scalable backend services using Django, FastAPI, WebSockets, WebRTC, and MQTT.
- Optimized for contextual accuracy and improved overall interaction quality

SKILLS

- **Languages & Frameworks:** Python, JavaScript, , FastAPI , React.js
- **Libraries & Tools:** Matplotlib; Android Studio, Visual Studio Code, Power Bi
- **AI & GenAI :** Large Language Models , Retrieval-Augmented Generation ,ChromaDB ,AI Agents
- **Database Management:** SQL, PostgreSQL
- **Version Control & IDEs:** Git, GitHub PyCharm,DBEaver

EDUCATION

SANT GADGE BABA AMRAVATI UNIVERSITY

Bachelor of Engineering in Electronics and Telecommunication

Amravati, IN

January 2021 – May 2025

SHRI. RAMKRISHAN KRIDA VIDYALAYA AMRAVATI

Higher Secondary Board in Electronic Science

Amravati, IN

July 2019 - November 2020

CERTIFICATION

- Dart & Flutter | The Complete Flutter Development Course
- KOTLIN - Android App Development using Kotlin
- Figma for User Interface and User Experience UI UX Design
- Node.js and Beyond: The Complete Developer Bootcamp
