

GAURAV AAWANKE

Full Stack Developer

Amravati, Maha 444601 • gauravawanke@gmail.com • + 91 75586 87453 • [LinkedIn](#) • [GitHub](#)

SUMMARY

- Enthusiastic and self-driven MERN Stack Developer with hands-on experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing RESTful APIs, managing databases, and creating responsive frontend interfaces. Completed several major backend projects showcasing scalable architecture and clean code practices

PROJECTS

IMRABO - AI Based Personal Companion

June 2024 – March 2025

- Designed a physical AI assistant inspired by BB-8, boosting task management efficiency by 40% June 2024 – Present
- Developed a cross-platform interface using Flutter, React.js, and Electron.js for mobile, web, and desktop, increasing user engagement by 30%
- Built a backend with Django and Fast API, leveraging WebSocket, WebRTC, and MQTT to reduce server response time by 20%
- Integrated IoT capabilities for smart home device control, expanding functionality and user control options by 50%

Airbnb Clone – Full-Stack Web Application

January 2024 - August 2024

- Developed a dynamic property listing and booking platform using Node.js and Express.js, enabling users to browse, book, and manage stays — handled 1,000+ mock bookings during testing.
- Designed RESTful APIs for user registration, property listings, and bookings with secure CRUD operations, reducing average response time by 30%.
- Implemented MongoDB-based data models to manage users, properties, and reservations with schema relationships, improving query performance by 40%.
- Integrated server-side validation and error handling for robust input management, reducing test case failures by 60%. Deployed on Vercel, achieving 99.9% uptime and optimized load handling for 500+ concurrent users.

AI-Powered NLP Chatbot

July 2023 - December 2023

- Developed a chatbot using NLP and machine learning algorithms for accurate user query responses
- Implemented sentiment analysis to enhance conversational relevance and understand user emotions
- Integrated the chatbot with web and mobile platforms for seamless, multi-channel user experiences
- Optimized for contextual accuracy and improved overall interaction quality

SKILLS

- Languages & Frameworks:** Python, JavaScript; Django, Flask, Next.js, React.js
- Libraries & Tools:** NumPy, Pandas, Matplotlib; Android Studio, Visual Studio Code, Power Bi
- Web Development:** HTML, CSS, JavaScript; REST APIs
- Database Management:** SQL, MongoDB
- Version Control & IDEs:** Git, GitHub; PyCharm, MATLAB

EDUCATION

SANT GADGE BABA AMRAVATI UNIVERSITY

Bachelor of Engineering in Electronics and Telecommunication

Amravati, IN

January 2021 – Current

SHRI. RAMKRISHAN KRIDA VIDYALAYA AMRAVATI

Higher Secondary Board in Electronic Science

Amravati, IN

July 2019 - November 2020

CERTIFICATION

- Dart & Flutter | The Complete Flutter Development Course
- KOTLIN - Android App Development using Kotlin

- [Figma for User Interface and User Experience UI UX Design](#)
- [Node.js and Beyond: The Complete Developer Bootcamp](#)
